

Insert a create button

To insert a create button as content, you can use the [Button](#) Macro of the Enterprise Theme with the following configuration:

Parameter	Value
Internationalization i18n key for the title	create.name
CSS class	bv-create-button

Create

'Button' Makro einfügen

Vorschau

Displays a button/link in theme style.
Dokumentation

Title

Internationalization i18n key for the title
All confluence installed i18n key could used (installed by confluence or a plugin)

Link

CSS class
Sets the class attribute of the element for styling or extended functionality. If you add the css class *bv-create-button* the create content dialog opens on click.

A specific width

A fontcolor

Makro auswählen Einfügen Abbrechen

If you now click the button, the Confluence Create dialog is opened.

Create

Filter [Help](#)

Select space
