

# Finding the Storage Format of a page

To retrieve the storage format of a page, please follow these steps:

Step	Description
Go to the desired page	A page with the issue you reported us in the support.
Get source	<p data-bbox="397 359 714 384">Tools menu, <b>View Storage Format</b></p>  <p data-bbox="397 1020 857 1045">If you use the Enterprise Theme, it will look like this:</p> 

Copy and paste the source to the issue

Enclose the content in a **{noformat}** macro.

The content will look like this:

```
<p>  
<ac:structured - macro ac:name="congrats-macro" ac:schema - version="1" ac:macro - id="e80e5cb9-e516-4ee7-af78-1c89f5163f6a">  
<ac:parameter ac:name="max">50</ac:parameter>  
<ac:parameter ac:name="nextDays">500</ac:parameter>  
<ac:parameter ac:name="prevDays">500</ac:parameter>  
<ac:parameter ac:name="events">1, 2</ac:parameter></ac:structured - macro>  
</p>
```
