

How to find the Storage Format of a Confluence page

To retrieve the storage format of a Confluence page, please follow these steps:

1. Access the page with the issue reported in your ticket.
2. In the Tools menu, select **View Storage Format**.

3. Copy and paste the code into the ticket.
The content will look like this:

```
<p>  
<ac:structured - macro ac:name="congrats-macro" ac:schema - version="1" ac:macro - id="e80e5cb9-e516-4ee7-af78-1c89f5163f6a">  
<ac:parameter ac:name="max">50</ac:parameter>  
<ac:parameter ac:name="nextDays">500</ac:parameter>  
<ac:parameter ac:name="prevDays">500</ac:parameter>  
<ac:parameter ac:name="events">1, 2</ac:parameter></ac:structured - macro>  
</p>
```

Enclose the content in a **{noformat}** macro.
