

Dark features in the Enterprise Theme

Dark features give advanced users the possibility to enable or disable specific functionalities.

To enable one of these features, go to `<CONFLUENCE_URL>/admin/darkfeatures.action` and enter one of the following keys:

Key	Description	Since version
<code>bv.skin.core.page-metadata.no.hover</code>	Some designs only show the metadata if a user hovers over that area. By enabling this dark feature, the metadata is always shown.	6.0.0
<code>bv.skin.core.menu.user.name</code>	When enabled, the user name is shown in the header	6.0.0
<code>bv.skin.core.menu.navigation.dropdown.disabled</code>	Don't aggregate the header menu items in a drop-down in the header	6.0.0
<code>bv.skin.core.menu.navigation.dropdown.enabled</code>	Aggregate the header menu items in a drop-down in the header	6.0.0
<code>bv.skin.core.header.create.button</code>	Show the "create" button in the header area, not in the web section	6.0.0
<code>bv.skin.core.content.create.button</code>	Show the "create" button next to the "edit" button in the content navigation	6.0.0
<code>bv.skin.core.header.search.left</code>	Position the search area on the left in the header	6.0.0
<code>bv.skin.core.header.search.right</code>	Position the search area on the right in the header	6.0.0
<code>bv.skin.core.dashboard.navigation.disabled</code>	Hide the dashboard buttons like create space, user, ... on dashboard pages	6.0.0
<code>bv.skin.core.headerimage.space.upload.disabled</code>	Disable the header image upload function for all spaces	6.0.0
<code>bv.skin.core.headerimage.space.upload.disabled-{spaceKey}</code>	Disable the header image upload function for the space with the key {spaceKey}	6.0.0
<code>bv.skin.core.quick.access.sidebar.enabled</code>	Activate the quick access sidebar	6.1.4
<code>bv.skin.core.header.maximize.view</code>	Show a "hide header" link.	6.1.13
