

# Designs

How to enable an Enterprise Theme design.

Once the Enterprise Theme is installed and enabled, you can start off by picking one of three basic designs that come pre-installed with the theme. Designs consist of a set of preconfigured Enterprise Theme settings - for example, a color scheme and necessary web resources.

If none of the designs that come with the Enterprise Theme strike your fancy, you can [build your own design](#).

## Enable Enterprise Theme

The Enterprise Theme has to be [enabled](#). Otherwise, the theme settings you make won't have any effect.

## Enable a design globally

1. Choose the **cog icon**  at the top right of the Confluence interface, then choose **General configuration**.
2. Select **Designs** under **Enterprise Theme** in the left-hand panel. This will give you a list of all the available designs. The currently selected design is highlighted.
3. Click on the **Select** button of the design you would like to enable. This globally applies the settings of this design.

### Designs

If you select a design, then any colours defined in that design will be applied across the whole Confluence site. Space administrators may select a different theme for their spaces.

Design	Description	Select
	<b>Centered Design</b> A centered design, with a maximal width of 1280px.	Select
	<b>Default Design</b> A light blue design, with a light-toned header	Selected
	<b>Simple Design</b> A more simple design.	Select
	<b>Your CI/CD</b> Interested? Please contact us.	<a href="#">Send mail</a>

Confluence Colors	Color	Selected
Top Bar	#ffffff	<input type="checkbox"/>
Top Bar Text	#555555	<input checked="" type="checkbox"/>
Header Button Background	#003366	<input checked="" type="checkbox"/>
Header Button Text		<input type="checkbox"/>
Top Bar Menu Selected Background		<input type="checkbox"/>
Top Bar Menu Selected Text		<input type="checkbox"/>
Top Bar Menu Item Text	#cccccc	<input type="checkbox"/>
Menu Item Selected Background	#eeeeee	<input type="checkbox"/>
Menu Item Selected Text	#000000	<input type="checkbox"/>
Page Menu Selected Background	transparent	<input type="checkbox"/>
Page Menu Item Text	#555555	<input type="checkbox"/>
Heading Text	#003366	<input checked="" type="checkbox"/>
Space Name Text	#ffffff	<input type="checkbox"/>
Links	#0044cc	<input checked="" type="checkbox"/>

## Enabling a design in a space

1. Navigate to the space in which you would like to apply an Enterprise Theme design.
2. [Navigate to the Space Administration](#).
3. Select **Designs** under **Enterprise Theme** in the left-hand panel. This will list all the available designs. The currently selected design is highlighted.

4. Click the **Select button** of the design you would like to enable. This applies the settings of this design to this space.

The colors can not be changed, because the global design is selected.

Confluence Colors		
Top Bar	#ffffff	<input type="checkbox"/>
Top Bar Text	#555555	<input checked="" type="checkbox"/>
Header Button Background	#003366	<input checked="" type="checkbox"/>
Header Button Text	#fff	<input type="checkbox"/>
Top Bar Menu Selected Background	transparent	<input type="checkbox"/>
Top Bar Menu Selected Text	#000000	<input checked="" type="checkbox"/>
Top Bar Menu Item Text	#555555	<input checked="" type="checkbox"/>
Menu Item Selected Background	#eeeeee	<input type="checkbox"/>
Menu Item Selected Text	#000000	<input checked="" type="checkbox"/>
Page Menu Selected Background	transparent	<input type="checkbox"/>
Page Menu Item Text	#555555	<input checked="" type="checkbox"/>
Heading Text	#003366	<input checked="" type="checkbox"/>

If you would rather enable the globally defined design for that space, you can select **Use the global design**.

## Reselecting the design

Reselecting a design will reset all changes made to the theme configuration back to the default values of the design. You can reselect a selected design either globally or in a space. You might want to [export your theme configuration](#) before reselecting a design.

## Your own design

The bundled Enterprise Theme designs aren't your cup of tea? No Problem!

- [Develop your own design](#).
- [Drop us a line](#) and let us together discuss your ideas and how we can help you to create that design.
